District 12, Ho Chi Minh City

Education

Information Technology/Software Engineer

2022 - 2026

HO CHI MINH FOREIGN LANGUAGE AND INFORMATION TECHNOLOGY (HUFLIT) (GRADUATED)

GPA: 2.95/4

TOIEC: 540

Skills

Languages: JavaScript, HTML5, CSS3/SCSS.

Frameworks/Libraries: ReactJS, Redux Toolkit, Tailwind CSS, Ant Design.

Tools & Others: Git, Vite, RESTful API, Socket.IO, i18next.

Objective

Front-End Developer skilled in ReactJS, Redux Toolkit, Tailwind CSS, and RESTful API integration. Seeking a Fresher position to build responsive, user-focused web applications while growing in code quality, teamwork, and professional software development practices.

Work experience

Front-End Developer **12/2025 - Now**

SnapArtHCM

https://www.snaparthcm.com/

- Developed a responsive multi-page website for an art workshop brand, including home, about, workshop catalog, product pages, blog, gallery, and contact sections.
- Implemented React Router navigation with lazy loading, reusable layout components, and bilingual Vietnamese/English support using i18next.
- Built product/workshop catalog pages with images, pricing, detailed service information, and social media CTA links for booking inquiries.
- Integrated a Formspree-powered contact/feedback form with validation, submission states, and success handling.
- Enhanced user experience with SCSS-based responsive layouts and interactive animations using AOS, Lottie, and Framer Motion.

Front-End Developer **8/2024 - 12/2024**

Booking FlyNext

https://github.com/TrungTienns/BookingFlynext_FE

- Developed a flight booking web app with one-way/round-trip search, airport autocomplete, passenger selection, ticket class selection, and multi-step booking flow.
- Integrated RESTful APIs for authentication, flight search, ticket booking, user profile, admin flight management, and revenue reporting.
- Managed authentication and booking state using JWT, Axios interceptors, localStorage, and Redux Toolkit.
- Built admin dashboard with flight/user/ticket management, revenue charts, sortable data tables, and realtime customer support chat.

Activities

MEMBER OF THE IT CLUB **9/2022 - 12/2025**

IT CLUB

- Collaborated with team members to research and implement web projects using modern frameworks like ReactJS.

- Assisted in organizing technical workshops on UI/UX design and Front-End development for over 100+ students.
