

Vu Dinh Son

Intern/Fresher Software Developer

Hanoi, Vietnam | [Github](#) | +84-865790134 | sonvu2706@gmail.com

SUMMARY

Final-year IT student at Hanoi University of Civil Engineering with experience developing full-stack web applications using ReactJS, Node.js and MongoDB. Familiar with Java, REST APIs, Git, SQL databases and OOP principles. Strong problem-solving ability and eager to contribute in a collaborative software development environment.

EDUCATION

Hanoi University of Civil Engineering - HUCE
Information Technology Engineer

Hanoi
From 2021 - Now

MindX Technology School
Fullstack Web Developer

Hanoi
From 2026 - Now

WORK EXPERIENCE

APEX Group Vietnam
IT Support Intern

Vietnam
2023

- Configured network devices and workstations for office users.
- Assisted in troubleshooting hardware and software issues.
- Supported virtual network deployment.
- Collaborated with engineers during network maintenance.

SKILLS

Programming Languages: Java, JavaScript, Python, SQL

FE: Html, Css, Reactjs

BE: NodeJs, ExpressJs, REST API

DB: MongoDB, SqlServer, MySql

Tools: Git, Vercel, Postman, Figma

Others: Networking, Microsoft Office,

PROJECTS

Personal Project: *Chat App*

4/2026-5/2026

<i>Description</i>	Developed a full-stack real-time chat application enabling users to register, manage friendships, create posts, and exchange instant messages. Implemented responsive UI and integrated Firebase for authentication and real-time database synchronization.
--------------------	---

<i>Function</i>	• Login and Register user interface. • Users can use the Search page to find and make friends. • Profile page can be used to post and update users information. • Chat page can be used to chat real-time with friend
<i>Technology used</i>	• Frontend: Javascript(ReactJs),Css • Database: Firebase • Other: Git, Vercel, Cloudinary
