

NGUYEN VAN DUC TRUNG

FULLSTACK DEVELOPER INTERN

Ha Noi | trungk55t1@gmail.com | <https://github.com/nguyenvanductrung>

SUMMARY

Final-year Software Engineering student at HaUI with practical experience in Full-Stack web development and extensions. Proficient in Next.js, NestJS, and PostgreSQL, with a strong ability to leverage AI tools to accelerate development. Passionate about product experience and seeking to grow as a Full-Stack / AI-Integrated Developer.

WORK EXPERIENCE

CÔNG TY TNHH CÔNG NGHỆ VÀ TRUYỀN THÔNG BOOKMATE

April 2026 - June 2026

- Developed a web-based AI application for a pharmaceutical company using Next.js, NestJS, and PostgreSQL
- Optimized frontend interfaces and developed an automated OCR tool to extract product data from PDF documents
- Implemented synchronized product management features in the admin panel, enabling cascading deletion and status marking
- Utilized AI-assisted coding tools (e.g., AntiGravity) and built lightweight extensions to streamline product testing

PROJECTS

NutriWise — Fullstack

Tech Stack: Next.js, TypeScript, NestJS, PostgreSQL, Prisma ORM, Redis, JWT, Gemini API, Docker.

- Developed a fullstack nutrition and fitness platform for health tracking, meal management, workout logging, goal monitoring, and trainer-user interactions.
- Built RESTful APIs using NestJS and designed relational databases with PostgreSQL and Prisma ORM.
- Implemented JWT authentication, role-based authorization, Redis caching, email services, wallet/payment workflows, and dashboard analytics.
- Integrated Gemini APIs to provide nutrition analysis, personalized recommendations, and AI assistant features.
- Developed responsive user interfaces with Next.js and TypeScript while handling frontend-backend integration and deployment.
