

# HỨA MẠNH TÂN

## AI intern

huatan2k5@gmail.com | 0908370502 | Hồ Chí Minh city

### PROFESSIONAL

Computer Science student at the University of Information Technology (UIT – VNUHCM) with hands-on experience in Machine Learning, Information Retrieval, Computer Vision, and full-stack software development. Experienced in building AI-powered applications involving multimodal retrieval, vector search, object detection, and MLOps workflows. Passionate about applying AI techniques to solve real-world problems and eager to contribute to AI product development as an AI Engineer Intern.

### WORK EXPERIENCE

#### Information Retrieval System | AI Engineer ([github](#)) 9/2025 – 12/2025

- Designed and developed a multimodal information retrieval system supporting text-to-image and image-to-text search.
- Built an embedding pipeline using CLIP to generate semantic representations of images and text.
- Implemented vector indexing and similarity search using FAISS for efficient retrieval.
- Developed an end-to-end ranking pipeline to improve retrieval accuracy and response performance.
- Technologies: Python, CLIP, FAISS, Vector Embeddings, Similarity Search

#### Crowd Detection & People Counting System | Computer Vision ([github](#)) 1/2026–5/2026

- Built a real-time people detection and counting system using YOLOv8 and ByteTrack.
- Processed live video streams for crowd analytics and object tracking.
- Designed an MLOps workflow with MLflow for experiment tracking and model versioning.
- Visualized system metrics using Grafana dashboards.
- Technologies: Python, OpenCV, YOLOv8, ByteTrack, MLflow, Grafana

#### Restaurant Management & Ordering System | Software Developer ([github](#)) 1/2025 – 5/2025

- Developed a restaurant ordering and management system with real-time order processing.
- Designed database schemas and implemented CRUD APIs.
- Built customer and administrator interfaces supporting menu management and order tracking.
- Technologies: Node.js, JavaScript, HTML, CSS, MySQL

### EDUCATION

#### University of Information Technology (UIT) – VNUHCM

- Bachelor of Science in Computer Science
- 2023 – Present (Expected 3/2027)
- GPA: 3.31 / 4.0

### TECHNICAL SKILLS

- **Programming:** C++ , Python , SQL
- **Machine Learning & AI:** Scikit-learn, Pandas, Polars, Data Preprocessing, YOLOv8
- **Databases:** MySQL, SQL Server, Relational Database Design
- **MLOps & Deployment:** Docker, Docker Compose, Linux server

### CERTIFICATIONS

- Completed “Introduction to Git and GitHub” by Google (2024)
- Learned version control fundamentals including Git workflow, branching, and repository management
- TOEIC : 665/990
