SKILLS

- Front-End: HTML, CSS, JavaScript, ReactJS, React Native
- Back-End: Node.js, ExpressJS
- Database: MySQL, SQL Server, MongoDB
- Other Technologies & Tools: RESTful APIs, Git & GitHub, Postman, Agile/Scrum
- Soft Skills: Teamwork, Problem-solving, Time management, Eagerness to learn

Language

- English: IELTS 6.0 (06/2026)

Front-end/Fullstack Developer with hands-on experience in ReactJS, Node.js, and MongoDB. Experienced in building and deploying production-ready web applications, integrating AI services, and developing scalable RESTful APIs. Passionate about creating responsive, user-friendly, and high-performance applications.

Experience

Fullstack Developer – Task & Calendar Management:

01/2025 – 04/2025

- Developed a fullstack web application for task and schedule management.
- Built responsive and user-friendly interfaces using ReactJS.
- Designed and implemented CRUD functionalities for tasks, events, and user management.
- Integrated Google Calendar API for real-time calendar synchronization.
- Developed RESTful APIs for authentication, authorization, and data management.
- Implemented secure authentication and role-based access control (RBAC).
- Optimized application performance and ensured seamless interaction between front-end and back-end.

Tech Stack: ReactJS, Node.js, ExpressJS, MongoDB, Google Calendar API, JWT

Internship Front-end at FPT Software - Sumicutter System

06/2025 – 12/2025

- Worked as a Front-end Developer in an Agile team to develop an enterprise web application using ReactJS and C#/.NET.
- Built responsive and reusable UI components based on business requirements and design specifications.
- Integrated front-end features with RESTful APIs provided by the back-end team.
- Collaborated closely with back-end developers, testers, and business analysts throughout the development lifecycle.
- Participated in code reviews, sprint planning, daily stand-ups, and other Agile activities.
- Fixed UI bugs and improved application usability and performance.

Tech Stack: ReactJS, C#/.NET, MySQL, Jira, Azure DevOps, Git

Freelance Fullstack Developer – LMS Writing Platform

1/2026 – 5/2026

- Developed a fullstack LMS platform for IELTS and TOEFL writing classes.
- Built responsive and user-friendly interfaces using ReactJS.
- Developed RESTful APIs for authentication, class, assignment, and submission management.
- Integrated AI-powered writing evaluation and feedback features.
- Implemented role-based access control and secure JWT authentication.
- Deployed and maintained the application in a production environment.

Tech Stack: ReactJS, Node.js, ExpressJS, MongoDB, JWT, Gemini AI

Education

2021 - 2025

- **Software Engineer** - NodeJS
- **FPT University** - Khu công nghệ cao Hòa Lạc, Km29 Đại lộ Thăng Long, huyện Thạch Thất, Hà Nội
- **GPA:** 3.0/4.0 - Good
